

CogCom/BeCogBio Seminar SS 2022, Monday 13:00-14:30, at UBB, Djerassiplatz 1, 1030 Vienna, or join via [Zoom Meeting](#) as direct link or Meeting-ID: 989 3919 0732, Access Code: 033461

03.10.2022 | Prof. John Marzluff, University of Washington

Peeking under the hood: Neural circuits underlying the interesting behavior of crows (Thomas Bugnyar)

10.10.2022 | Prof. Mark E. Hauber, University of Illinois Urbana-Champaign

Anti-parasitic referential alarm calls: who listens to whom? (Sonia Kleindorfer)

17.10.2022 | Claudia Massaccesi, PhD

Neurobiology and state-dependency of human social affiliation: Behavioral, pharmacological and neurophysiological insights (Giorgia Silani)

24.10.2022 | Lucrezia Lonardo, PhD candidate

Investigating dogs' neuro-cognitive processes in the social domain (Ludwig Huber)

31.10.2022 | Suzanne Truong, PhD candidate

Characteristics of human-animal interactions (Jean-Loup Rault)

07.11.2022 | Courtney Pike, PhD candidate

Investigating the behavior of the invasive parasitic fly *Philornis downsi* in different host nests in the Galapagos Islands (S. Tebbich)

14.11.2022 | Jasmine Loveland, PhD

Seize the DNA: How flipped DNA became a recipe for success in mating strategies in the Ruff (*Calidris pugnax*) (Leo Fusani)

21.11.2022 | Fumihiko Kano, PhD, Max-Planck Institute for Animal Behavior

Using cutting-edge technologies to study animal social cognition (Thomas Bugnyar)

28.11.2022 | Hillary Jean-Joseph¹ | Daria Nagel,² both PhD candidates

¹How dogs and wolves see humans: Difference in autonomic nervous system modulation (Kurt Kotrschal)

²Social competence in adult corvid pairs (Thomas Bugnyar)

05.12.2022 | Andrew Katsis, PhD

Making sense of behavioral differences in fairy-wrens, finches and penguins (Sonia Kleindorfer)

12.12.2022 | Jefferson Garcia Loor, PhD candidate

Does personality influence the home range size and territory size of the medium tree finch? (Sonia Kleindorfer)

19.12.2022 | Barbara Kofler, PhD candidate

Dynamic interactions between Darwin's finches and the parasitic fly *Philornis downsi* (Sabine Tebbich)

09.01.2023 | Dina Mostafa, PhD candidate

The role of vocal signaling in the collective flight of greylag geese (Sonia Kleindorfer)

16.01.2023 | Bernhard Wagner, PhD candidate

Cross-species studies on the role of vocal harmonics in musicality (Marisa Hoeschele)

23.01.2023 | Matthias Nemeth, PhD

Effects of dietary fatty acids on the social life of guinea pigs (Eva Millesi)

30.01.2023 | Giulio Degano, PhD

Cortical signatures of the interaction between prosody and syntax during naturalistic speech listening (Narly Golestani)
