DOCTORAL PROGRAM IN COGNITION AND COMMUNICATION RETREAT AT NEUSIEDLERSEE

Retreat at Neusiedlersee, 26.-28.04.2018

The aim of this retreat is to reflect upon and exchange ideas about PhD education with a strong emphasis on teambuilding processes, communication and presentation skills. As this is an important issue not only for the doctoral program, the Retreat at Neusiedlersee is obligatory and fully funded for the CogCom PhD cohort.

All PIs will give a TED talk of 10 min. about a topic of their choice (see www.ted.com).

PhD will hold a 3 min. elevator talk about his/her research project, aims and obstacles. In addition, PhD candidates should prepare a poster of i) already existing data or ii) your project idea, using the CogCom corporate design (coming up soon).

Thursday, 26.04.2018
