COSB COLLOQUIUM

Centre for Organismal Systems Biology

Summer Term 2018

Mondays, 11:15 am; Seminar Room 3, UZA 1, Althanstraße 14, Vienna

- March 05** **Daniel MARTINEZ** Pomona College, USA
The transcriptome of inducible aging in *Hydra oligactis*
- March 19** **Michael BRAND** TU Dresden, GER
Learning from the fish:
Regeneration of the adult zebrafish CNS
- April 16** **Eric WARRANT** Lund University, SWE
How visual and geomagnetic information steer medium and long range navigation in nocturnal insects
- April 23** **Rob STEELE** University of California, Irvine, USA
Exploring Hydra biology with genomics, transgenics, and chemical genetics
- May 07** **Erich BORNBERG-BAUER** University of Münster, GER
The role of de novo evolved protein coding genes for major innovations in insect evolution
- May 28** **Martin VORACEK** University of Vienna, AUT
Which data to analyze and how:
New approaches to a general problem of empirical research
- June 8** **Günter WAGNER** Yale University, CT, USA
! Friday!
Born from fire: The evolution of mammalian pregnancy
- June 11** **Sebastian OCKLENBURG** Ruhr-University Bochum, GER
Hemispheric asymmetries: From genes to cognition
- June 25** **Sabine EGGERS** Natural History Museum Vienna, AUT
Bioarchaeology of South America goes abroad
