

CogCom/CogBio Seminar WS 2019/2020, Monday 12:30-14:00

UniVie Vienna, Althanstraße 14, 1090 Vienna, lecture hall 4 at UZA II (if not indicated differently) | VetMedUni Vienna, Donauefelderstraße 157, 1210 Vienna, seminar room at Messerli Research Institute | supervisor or host in parentheses

07.10.2019, 10:00 - 13:00 (VetMedUni) | Roger Mundry

Statistical models - what's the difference between them and tests and which implications does their use have?

14.10.2019 | Melissa Peignier

Frogonality: the interplay between animal personality and sexual selection in poison frogs (Eva Ringler)

21.10.2019 | Yasemin B. Gultekin

Dynamics of vocal behavior in Marmoset monkeys (Tecumseh Fitch | Thomas Bugnyar)

28.10.2019 | NN

04.11.2019 | Lisa Horn-Péter

Cooperative breeding and colonial nesting facilitate the evolution of prosociality in corvids (Thomas Bugnyar)

11.11.2019 (VetMedUni) | Raghavendra Gadagkar, Centre for Ecological Sciences, Bangalore

Social regulation of reproduction in a tropical insect society (Ludwig Huber)

18.11.2019 at lecture hall 3 UZA II from 13:15 - 14:45 | Yimen Araya-Ajoy, Centre of Biodiversity Dynamics, NTNU

Pathways to social evolution and their eco-evolutionary feedbacks (Eva Ringler)

25.11.2019 | Katharina Wenig

Let's play - an experimental study on play contagion in juvenile common ravens (Thomas Bugnyar)

02.12.2019 | Narly Golestani, Neurocenter, Brain & Language Lab, Geneva University

Neural bases of language learning, expertise and dysfunction (Tecumseh Fitch)

09.12.2018 | Bernhard Wagner

Cross-species study of the role of vocal harmonics in musicality (Marisa Hoeschele)

16.12.2019 | Master's Slot

13.01.2020 (VetMedUni) | Theresa Rössler

Problem-solving in wild Goffin's cockatoos (Alice Auersperg)

20.01.2020 (VetMedUni) | Darren P. Croft, Washington Singer Laboratories, University of Exeter

The evolution of menopause in Killer Whales (Friederike Range)

27.01.2020, 11:15-12:00 (COSB) | Miriam Liedvogel, MPRG Behavioural Genomics, MPI Evolutionary Biology, Plön

Bird migration - evolutionary genetics of migratory behavior (Leonida Fusani)
