

Seminars at Wilhelminenberg Winter 2019/20

Guests are welcome!

Student participation in the seminar can be recognized as an elective subject
(KV 128 804 "Ausgewählte Themen der Wildtierökologie")

Month	Date	Name	Institution	Topic
October	02.10.	STEFAN FISCHER	Konrad-Lorenz-Institute of Ethology, Univ. of Veterinary Medicine, Vienna, A	The influence of early experience on social plasticity in cooperative breeder
	09.10.	INGA NEUMANN	Regensburg Center of Neuroscience, Dep. of Behavioral and Molecular Neurobiology, Univ. of Regensburg, DE	The brain oxytocin system: Pro-social, anxiolytic and anti-stress effects
	16.10.	MICHAEL LIERZ	Clinic for Birds, Reptiles, Amphibians and Fish, Justus-Liebig- University Giessen, DE	Assisted reproduction in Parrots – A helpful tool to save endangered species?
	23.10.	REDOUAN BSHARY	Institute of Biology, University of Neuchâtel, CH	Animal cooperation; from game theory to ecology to classic ethology and psychology
	30.10.	VLATKA ČUBRIĆ-ČURIK	Univ. of Zagreb, Dep. of Animal Science, Lab. for Conservation Genetics, HR	Large-scale maternal genomics reveals living aurochs mitochondria in Europe
November	06.11.	BERND GIESE	Institute of Safety and Risk Sciences, University of Natural Resources and Life Sciences, Vienna, A	Gene Drives mark a new quality in GMO release
	13.11.	SWEN RENNER	Curator and Head of Ornithology, Natural History Museum Vienna, A	Birds in a changing world: effects of global change on biodiversity
	20.11.	DAVID HAZLERIGG	Arctic Chronobiology and Physiology Group, University of Tromsø, NO	Photoperiodic history-dependence – why? where? and how?
	27.11.	BARBARA TABORSKY	Division of Behavioural Ecology, Institute of Ecology and Evolution, University of Bern, CH	Development matters: animal social competence and its neuroendocrine basis
December	04.12.	JACOPO CECERE	Istituto Superiore per la Protezione e la Ricerca Ambientale, Ozzano dell'Emilia, I	Moving toward foraging grounds when breeding together with hundreds of conspecifics: the movement ecology of colonial birds
	11.12.	GERALD KERTH	Applied Zoology and Nature Conservation, Zoological Institute and Museum, Greifswald, DE	Long-term field studies in bat research: importance for basic and applied research questions in animal behavior
	18.12.	CARLES VILA	Conservation and Evolutionary Genetics Group, Estación Biológica de Doñana – CSIC, E	Evolution and extinction: wolves and quails in southern Spain
January	08.01.	SUSANNE ÅKESSON	Dep. of Biology, Center for Animal Movement Research, Lund University, SE	A life on the wing: individual tracking of common swifts reveal a highly mobile lifestyle
	15.01.	JASMINE L: LOVELAND	Behavioural Genetics and Evolutionary Ecology Research group, Max Planck Institute for Ornithology, DE	Diamonds in the Ruff: insights into the endocrinal changes in an inversion polymorphism
	22.01.	STEFFEN HAHN	Department Bird Migration, Swiss Ornithological Institute, CH	Broad-scale pattern and individual performances of Afro-Palaeartic migrant birds
	29.01.	GÖRAN SPONG	Molecular Ecology, Swedish University of Agricultural Sciences, SE	Genetic tracking across international borders

Forschungsinstitut für Wildtierkunde und Ökologie, 16., Savoyenstraße 1

Konrad Lorenz-Institut für Vergleichende Verhaltensforschung, 16., Savoyenstraße 1

When: Wednesdays at 16:00 c.t. / 16:00 Start with Coffee and Tea.

Where: The institutes are located opposite of Schloss Wilhelminenberg in the 16th district of Vienna. The seminars will take place at the "Seminarraum" at the Forschungsinstitut für Wildtierkunde und Ökologie (Research Institute of Wildlife Ecology).

How to get here:

Streetcar (2, 10, 44, 46) or train S45 or underground (U3) to station Ottakring, then bus 46A or 46B to "Wilhelminenberg".
