

## Behavioural Biology Seminar SS 2019

Do 15:15, Konferenzzimmer Zoologie

14. March **Stefan Stumpf**  
Diurnal acoustic activity and functional distinction in the vocal repertoire of wolves and dogs
21. March **Amadeo Mattia** (Dept. Neurobiology)  
Tackling the mystery of the asymmetric body in *Drosophila melanogaster*
28. March **Magdalena Hageneder & Constanze Michalzik**  
Projektpraktikum 2018: Semi-frei lebende Japanmakaken am Ende der Paarungszeit: Vergleich ihres Sexualverhaltens mit wilden Populationen.
11. April Verhaltensphysiologische ÜB: Project presentations
02. May **Demet Çekin** (BOKU)  
Hierarchical analysis of in- and outbreeding in haplodiploid predatory mites *Phytoseiulus persimilis*
09. May **Timo Schwemhofer** (Dept. Behavioural Biology)  
Darwins Finches: preening with leaves
- Berry Maletzky** (Dept. Behavioural Biology)  
Does the ability of women to detect testosterone markers in male faces depend on their hormonal state?
16. May **Georgine Szipl & Verena Pühringer-Sturmayer** (KLF Grünau)  
Where-When-With Whom? Results from different projects in greylag geese
06. June **Matthias Nemeth** (Dept. Behavioural Biology)  
A short introduction to metabolic rates
- Bettina Meidlinger** (Dept. Behavioural Biology)  
Effects of female reproductive state on basal metabolic rate in guinea pigs
13. June **Susanna Fritscher** (Dept. Behavioural Biology)  
Effects of age and sex on basal metabolic rate in guinea pigs
- Klara Füreder** (Dept. Behavioural Biology)  
Effects of social confrontations on metabolic rate in male guinea pigs
27. June Verhaltensphysiologische ÜB: final presentations
