COSB COLLOQUIUM

Centre for Organismal Systems Biology

Summer Term 2019

Mondays, 11:15 am; Seminar Room 3, UZA 1, Althanstraße 14, Vienna

- Mar. 18** **Lukas KRATOCHVIL** Charles University, Prague, CZE
Evolution of sex determination and sex chromosomes
in amniotes
- Mar. 25** **Caroline ISAKSSON** Lund University, SWE
Evolutionary adaptation, acclimation and/or plastic
physiological responses to urban environments by birds?
- Apr. 01** **Peter HEATHER** King's College, London, GBR
16:15 Migration and identity in the first millenium AD
HS7, UZA II
- Apr. 08** **Beth OKAMURA** Natural History Museum London, GBR
How to be an endoparasitic cnidarian: Lessons from Myxozoa
- May 06** **Kevin KOCOT** University of Alabama, USA
Biodiversity, systematics and genomics of the
Aculiferan molluscs
- May 13** **Nicolas GOMPEL** LMU Munich, GER
Quantitative regulatory evolution
- May 20** **Sarah E. ELTON** Durham University, GBR
On the evolution of Old World monkeys:
Predicting processes and patterns
- Jun. 03** **Yossi YOVEL** Tel Aviv University, ISR
From sensory perception to foraging making – the bat's point
of view
- Jun. 03** **Byung-Lip (les) LEE** Johns Hopkins University, Baltimore, USA
14:00 Multifunctional design of bio-inspired engineering structures
- Jun. 24** **Robert D. MARTIN** The Field Museum, Chicago, USA
Re-examining the concept of a narrow 'fertile window'
in the menstrual cycle
