

## Behavioural Biology Seminar SS 2018

Do 15:15, Konferenzzimmer Zoologie

22. March **Sarah Lehner** (Dept. Behavioural Biology)  
Enclosure utilization of emperor tamarins (*Saguinus imperator subgriseus*) in Schönbrunn Zoo
12. April **Kerstin Filzmoser** (Dept. Behavioural Biology)  
Diet-dependent egg retention by the predatory mite *Amblyseius swirskii*
19. April **Stefan Trkulja**  
The Effect of GPS Transmitter on the Behaviour of Northern Bald Ibis
26. April Vertiefende verhaltensphysiologische ÜB: Fragestellung und Methoden
03. May **Berry Maletzky** (Dept. Behavioural Biology)  
Pre-Study "Fleeting Beauty": Decision-making in men influenced via a physiological event
17. May **Verena Pühringer-Sturmayer** (KLF Grünau & Dept. Behavioural Biology)  
Social behaviour and habitat choice in the Northern Bald Ibis
24. May **Valerie Bürghofer** (Dept. Behavioural Biology; FIWI)  
Social relationships and stress load in wild boar
07. June **Veronika Simanko**  
Extending a paradigm - Trivers-Willard Theory in the context of investment of aunts and uncles towards nieces and nephews
14. June **Noémie Liesch** (Dept. Behavioural Biology)  
Sex-specific differences in sound production and agonistic behaviour in croaking gouramis
21. June **Arno Cimadom** (Dept. Behavioural Biology)  
Host-parasite dynamics: recent changes in the host-parasite interaction between Darwin's finches and the invasive ectoparasite, *Philornis downsi*
28. June Vertiefende verhaltensphysiologische ÜB: Abschlussreferate
